<p>What would be good?</p>	<p>Fun. Understanding this deal. Meeting some cool people. Dancing. Enjoying each other. Some attention or at least not an awkward, isolated time. Sexiness. Getting comfortable making out together in "public".</p> <p>Yes. Because I don't feel that either of us would veto without good cause. We need to trust that in each other. And the veto would have to be done with class.</p>	<p>A fun, sexy, night out with each other! A staycation away from home with laughs, dancing, and a new experience together.</p> <p>Ability to veto?</p> <p>Agreed. And also being heard to stop at any point if anything feels like too much or uncomfortable. Not like we have to get up and leave, but taking alone time together to digest or regroup.</p>
<p>What would be great?!</p>	<p>Some sexy time with another couple. Making out with another couple. Making some connections and feeling like we want to go back! Feeling enthusiastic about this experiment/direction.</p> <p>So as we talked about, kissing (in the making out variation) may need some additional subtleties.</p>	<p>Finding a couple we both enjoy and feel attracted to and getting some play time with them! Having a great night regardless of whether we actually play with anyone else.</p> <p>I'm with you. But "Great" to me would be something pretty dynamic and sexy. One of us touching stranger boobs.</p> <p>True. I agree. I think "great" then would be finding a couple we're both attracted to and</p>

		<p>having a hot makeout dry hump session next to each other and then you and I having sex while they have sex next to us.</p> <p>I also really love the idea of finding a single woman who is into playing with both of us.</p>
What would be bad?	<p>Any level of feeling shitty. Getting pressured or going somewhere we don't want to go. Upsetting each other. Ignoring each other. Going off without the other. Getting drunk and sloppy.</p> <p>Agreed. I think we both need to be on our game and not over do it. It's the one place that we can lose confidence in the other's decision making.</p> <p>Aww, shake it up with the parents! No, I get it. I've not talked to one person about it.</p>	<p>One person feeling like the other is getting "more" attention or one of us finding a single person that we're attracted to and the other not finding someone. Feeling left out. Getting too drunk (maybe we just bring seltzers or a couple cutwater margs and no hard liquor?).Yes Boundaries being crossed with someone we're with or someone else being too drunk.</p> <p>This getting out amongst friends. I don't want to talk about it with people. Also, my parents seeing my location! I'm gonna leave my phone at the hotel lol</p>
What would feel OK?	<p>Flirting. Kissing. Touching boobs. Dry "hump" or rub. You making out with a woman.</p>	<p>Agreed with everything you mentioned. Hot and heavy making out with over the clothes touching sounds great. Finding a unicorn that is attracted to both of us and wants to make out with both of us. Having sex with you in a private room.</p>

<p>What's potentially on the table with a mutual check-in?</p>	<p>Hand job/fingering. Blow job?</p> <p>An orgasm due to stranger fingering or hand job? Seems unlikely but who knows?! And when to go back to each other? If someone else has done all the work is it fair for us to finish each other? Oh dang. That's a good point.....I guess if we check-in and fingering/hand job is on the table then an orgasm is kind of also on the table? And does that mean we then are allowed to give others orgasms? Ah! Seems scary but like part of the package of inside clothing touches...If anything like this level of action happens, so will orgasms, especially for you I feel. I think I'm fine with it as I don't see that ending our night. I don't think that will happen with me, but for as many hardon's as I've had with this discussion, it's a possibility! Agreed. But I don't know that I'm ready for this piece yet - either one of us orgasming with someone else. I guess that's part of the check in if we decide to move onto hand job / fingering.</p>	<p>Hand job / fingering mouths on boobs Making out/playing with multiple people in a bigger setting? Yes. That seems varsity level but I love it. One thing that resonated with me on the podcasts is having attention drawn away from what I'm doing because I'm hyper aware of what's happening to you. I think it could turn varsity level but if we let folks know that we're not doing more than making out then it could just be super fun make out and touch time. I could totally see the hyper awareness happening to me too. We'll play it by ear!</p> <p>Someone watching us play / have sex? Having sex not in private? I would love that. Not something I've ever felt comfortable with but I'd like to get comfortable! I like the idea of us just doing our thing and if it's entertaining for someone else, great?! This definitely turns me on. I think it's also a great and encouraging environment so you won't be offending anyone or needing to worry about who is seeing which takes the edge off.</p>
<p>What's off the table, for now?</p>	<p>Blow job? Any penetration. Anyone cumming on you. Yes. But I am fine with you and a woman. You</p>	<p>Blow job / Eating out, I'm going to be eating you out though :-) Yes please. Penetration</p>

and a man however, and me with a single woman that's not into you, different. I think it could be ok provided there was obvious respect for the other and awareness of who's priority. I won't do well with someone that's dismissing me. Vice versa I'm sure. But there's bound to be some degree of stronger attraction between one or the other of any given couple.

I'm fine with a woman too. It actually gets me really excited to think about us finding a single woman that's into both of us. But it seems like this piece could get tricky and I think that may be a boundary for now.... no singles (men or women) unless the woman is interested in being with both of us? Again, happy for you to find a single woman that's into you. Was going to say "as long as I can watch" but honestly, don't even need that. In fact if that were to happen I might even just let you be. I don't suggest the same of a woman singularly interested in me. I think if I were to find a woman, I would want you to watch, maybe direct, and also be a part of it. I'm attracted to women but it's been rare that I would choose a woman to be alone with. I'd rather you be there. HMM, yes, I get it. It was you and Karin that night right? It felt like you were pretty into her and there was not really other participation going on. But you were pretty lit. And I'm fine with that.

Exchanging contact information. If that happens, contact happens in a group chat. Absolutely and a good one. Any connection that happens here is to be shared.

Making out with singles? Let's talk about this more.

Or maybe we each find a single and they're also into each other?! Wowza.

Bringing anyone back to our hotel room or going to someone else's. I'm definitely open to all of it in the future but I want to have some hard stops for this trip so I at least know a couple things that are off the table! Agreed!

	<p>Ha! Yes. That was me and her but I know part of what turned me on was you being there. I've dabbled enough with women to know that it's not a priority for me to be alone with a woman. It adds a level of sexiness, spice, and excitement with you there. But who knows! Women are hot! Ha! Women are HOT!</p>	
What's scary	<p>Aggressive men. You getting abused in any fashion. Seeing something I can't unsee but not sure what that would be. Either of us losing respect or confidence in the other because what we see/do. Coming away comparing ourselves to someone else because the other was smitten.</p> <p>Dirty talk. I've never really liked it and have felt pretty uncomfortable when asked to do it. I could learn and this might be a good venue for us to actually explore that. But I don't think I'd respond well to someone saying shit to you. I know I wouldn't.</p>	<p>Feeling insecure or left out. Playing certain things by ear and feeling pressured to say yes or go through with them in a game time decision. I want to play it by ear but I also want to recognize I'm not the best with game time decisions and I don't want to feel pressured and then regret it. This is kind of what I'm talking about with having some hard stops for this first time (see hotel comment). Maybe we go and have a total blast and go back for sunday funday and the rules adjust! ! I like it!</p> <p>Running into someone we know? Is that scary or hot? Hot! This does not need to be broadcast. But depending on how it goes for us, I think that those that are in this world would be a joy to know. So no, not scared. In fact psyched to be in a world where everyone is at the very least, curious and open. Love it!</p>
What aren't you scared	You getting all stupid over some dude. Me	I'm not scared of you falling in love and

<p>of?</p>	<p>getting stupid over some girl. This feels a bit like going to a participation zoo. But, to get physical with anyone, there will have to be attraction. I feel ok with you being attracted to others and I think it will feel ok here but who the fuck knows!.</p>	<p>leaving me.</p>
<p>With another person I'm curious about your level of comfort with:</p> <p>I think because I'm not drawn to these but know that could be (are) things that many are. And you to some degree surely.</p> <p>(And this doesn't need addressing now, just putting it out there)</p>	<p>Rough play. Spanking? Pulling hair? Aggressive kissing/fingering/fucking?</p> <p>Butt play. Is someone else that's really into it a down-the-road curiosity?</p> <p>Being cum on. Face?</p>	<p>I do love a good sensual hair pull or a good spanking but I have to be really turned on for the spanking part for it to turn me on more. I think if we stick with over the clothes play for the first night, having the option to have more sensual things happen is really exciting. Although not a lot of men know how to do it right without jerking your hair or pulling too hard, so there's that haha!</p> <p>I think butt play is definitely something I'm interested in trying out. First with you. I don't want to try it out with anyone else before you and I play around with it. We can start with outside play, the rubbing and pressure piece sounds hot. I guess we've already started working on this one!</p> <p>I would love you to cum on me. This one too! Look at us go! It's kind of my favorite with you. I think as we learn more about our comfort levels, I'll be able to know more about how I feel with someone else cumming</p>

		<p>on me but right now I'm feeling like that's a hard stop.</p> <p>More / different toys is a fantasy of mine for sure. I love the idea of being able to suck your dick and also have you play with a toy inside me.</p> <p>Being in a big group of people sounds awesome. It feels like it could escalate quickly but the idea of being in that big group sexiness does sound lovely!</p>
Fantasies?	<p>Two women really closely involved in each other's business with a man. This one turns me on. Like watching 2 women with another man? Or you being that man with another 2 women? Basically what you described below. One woman touching me while you give a BJ or even PIV. Yikes!</p>	<p>Having another woman join us for a full night of fun. Falling asleep, waking back up and touching, having you 'direct' me with her really turns me on. Mmmmm</p>

Rotten Tomatoes!!

On a scale of 1 to 5 (5 being most comfortable) and feel free to add to this list too:

How does it feel to make anything under a 3 off the table for our first visit? Ha, love this! Kinda thought that putting a spreadsheet out there would wind you up!! You know me well! I like the visual piece of it and I feel like there's less room for confusion when it's laid out.

Public makeout with each other - Jane 5 / Dick 5

Public play (fingering/HJ) with each other - 5/5

Public oral play with each other - 4/4 Somehow a BJ seems a little more "acceptable"? I feel like going down on you would be closer to 3. Unfair? I think it's because a BJ can have more of a passive quality about it. Funny enough I agree! I think if I have a dress on or something and you're under that, that sounds super hot.

Public sex with each other and others watching (i.e. keep the curtains open in one of the rooms) - 3ish. Folks JUST watching and not involved in their own thing makes me a little less comfortable. I don't love the idea of guys standing over you/us with their dick in their hands. Agreed. If we decide to go into a room without another couple, would you want to close the curtain?

Makeout / soft swap (over the clothes touching and maybe under the shirt boob touching) with another couple - 4/4

Boob licking / kissing - 4/4

Dick doing the licking / kissing 4/4

Jane receiving the licking / kissing 4/4

Sex with each other next to another couple after soft swapping - 4/4 (sorry, thinking the wrong direction)

Fingering / HJ swap with another couple - 3/3

Oral sex with another couple - 1-2/2

Sex with another couple (swap) - these two sound so hot for the future. For now, I'm a 1-2 but it definitely turns me on to work up to this. This feel like an awesome future goal. I agree 1-2 for now.

Sex all together - these two sound so hot for the future. For now, I'm a 1-2 but it definitely turns me on to work up to this.

We're together in a room and someone asks to join us. We haven't talked to them or met them at all yet. - 1

Makeout / touch together with a another woman 3 (my only hesitation is it's hard with 3 people - someone might feel left out if it's just touching and making out without more) You would know better cause you've been there. Obviously kissing is 1on1 but I feel like if everyone is pretty into each other it wouldn't be that hard? I mean you've got 2 holes, 2 boobs and a lovely

mouth, double that and big ol' hard penis and it seems like it could be pretty great. But I certainly understand how it could go that way. I'm a 3. Ha! Great layout. I think because I'm not totally comfortable with you being with someone else separate from me yet, I fear that happening in a makeout / touch situation. If we're doing fingering and hj/bj it becomes easier to keep everyone busy.

Everything but sex with us and another woman - 2/2-3

Dick fingering her - 2 /3 but totally respect a 2 now. Into it for the future but not for this visit

Jane fingering her - 2-3 after a check in /3-4. Don't think I'd even need a check in.

Giving Dick a HJ - 3-4 it sounds so hot to have a woman give you a HJ while I give you a BJ. I'm oddly comfortable with this. Love, Love, Love this idea! 4

Dick going down on her - 1/2 (for now) 1/2

Jane going down on her - 3 (with you watching, directing) 3

She goes down on Dick - 2/2-3 **We talked about the STD part. Let's dial in on that.**

She goes down on Jane - 3 (with you watching, directing) 3 I'm curious what the directing part looks like? This kind of brings up the sense I've always had (or more my only experience) is that sex is limited and compartmentalized to two people. Even watching porn with you feels a kinda crazy thing to share. So in "directing" or knowing what a good level/type of 3 or 4-way combined activity is kind of a mystery to me. I personally wouldn't want to be over-managed at all but then knowing what someone else would enjoy and or making little suggestions sounds pretty ok. I know I've not responded well before when someone has told me exactly what to do, even if it was done kindly and with enthusiasm (and not critical). Something I need to work on I think, how, how much. Good points. It sounds so hot to me to see you touching yourself while making suggestions on what you'd like to see between me and another woman - little suggestions with a "it would be really hot if you're comfortable with going down on her or like "if you're comfortable using your tongue, that would be great". "Do you want to try putting your fingers inside her?" - not like a step by step "do this now or try this". But I totally get you're not a super vocal / dirty talk person either so this could be something to work up to. I do love the idea of someone going down on me while your dick is in my mouth.

3-some with penetration with another woman -

2 for now with the exception that the hottest thing I can imagine right now is you fucking me and me going down on her / fingering her 2 but I love that image

Making out with a single person - 2 (I like what we have in place right now for when we are not together. I think when we are together, my level of comfort with this goes down) Hmm, interesting. I'm fine with a 2. I think I'm more attracted to the idea of this happening together than apart so....agreed.

Watching your partner make out with a single person - 2 (not super into this idea) 2-3. Sounds like you may be more a 1-2 though? I think you're right. I'm more of a 1-2 for right now. It hits on that feeling left out part that I'm worried about.

Watching your partner make out with someone while you also make out with someone (but they don't know each other) - I think it's a 2 again for me. I think sticking to couples for this first visit feels the most comfortable. Agreed, and fine with that.

Given how I feel about making out with a single person, I think I'm leaning towards joint participation only for this first visit but am open to your thoughts.
